

ALVA The mobile, electric starscreen

In f ►

www.haas-recycling.de/en

Functions

HIGHLIGHTS:

- 2-fraction, mobile star screen with oversize return conveyor on a hook-lift frame!
- Large feed hopper with metering drum!
- Excellent screening capacity of up to 200 m³/h!
- Integrated screw conveyor!
- Fully electric driven!
- Service access!

The ALVA starscreen reliably separates two fractions. The highlight is the integrated screw conveyor for collecting and discharging the fine fraction. The material is transported to the discharge conveyor by the screw conveyor.

The oversize material is discharged from the screen deck via a funnel-shaped chute onto the return conveyor. This can be pivoted by 200 degrees. With a discharge height of up to 5 metres, the oversize material can be automatically fed back into the shredder or optionally discharged as a second finished fraction.

ALVA is compact and impresses with an outstanding screening capacity (200 m³/h). The assembly on a hook-lift frame provides flexibility. The electric drive and the wear-resistant screw conveyor guarante maximum efficiency.

ALVA is suitable for screening pre-shredded:

- Waste wood
- Green waste
- Roots
- Railway sleepers

Control cabinet

- Multifunctional control board
- Management of the machine data
- Diagnosis via HAAS tracking portal
- WIFI access (machine data on tablet / mobile phone)
- electrically driven, external power supply required
- Cable remote control for folding and slewing the oversize / return conveyor

Feeding hopper

- Hopper with integrated conveyor
 belt
- Optional with metering drum
- Optional hopper elevation

Screen deck

- Screen with flexible stars
- 7,5 m² active screening area
- Screening area covered by tarpaulin
- Collecting screw conveyor
- Easy screen deck change
- rpm of the screen shafts freely adjustable

Discharge fine fraction

Discharge coarse fraction

- Hydraulically foldable
 1.000 mm conveying width
 4.600 mm dropping height

Technical data

Total dimensions:

Infeed width

Total alliensions.			Sciecti acek.	
	Length	9.980 mm	Length	5.85
	Width	10.230 mm	Width	1.280
	Height	4.515/4.915* mm		
			Discharge conveyor fines:	
	Transport length	8.390 mm	Length (one piece)	5.60
	Transport width	2.460 mm	Width	1.00
	Transport height	2.660 mm	Dropping height (35°)	2.76
	Infeed bunker:		Discharge conveyor oversize	
	Volume	ca. 2 m³	Length	7.65
	Infeed height	2.700 mm	Width	1.00

Screen deck:

5.850 mm 1.280 mm

5.600 mm 1.000 mm 2.760/3.160* mm

7.650 mm

1.000 mm

4.515/4.915* mm

Drive:

Electrically driven, external power supply required.

Hook lift:

According to DIN 30722-1

Total weight: ca. 14.500 kg
